Bogong Hall Update

It is getting closer.

The council have had the floor sanded and are installing new heating and air conditioning for us, after that the only left to do is for the council to make sure all the works are completed satisfactorily and finalise the License agreement formalising our use of the Hall. I expect this will be completed in July. I would like to thank Colin Bostock at Monash Council for his support and getting the project to this point.

When we have access to the hall, we will be setting it up over a couple of weeks to make sure it meets the needs of those using it. Once we are ready, we will then invite those who made it possible to celebrate by sharing a meal with us. We will also launch our new timetable at this time.

With the new hall we will be able to start a couple of new activities, such as table tennis, pool and a singing group. We will also probably be changing our community lunch from Wednesday to Tuesday which will mean we can sit around for a coffee, play a game of table tennis, pool, or watch a movie after lunch, rather than vacate the hall for our Yoga class. Please see the first draft of a new timetable below. If you have any suggestions for other activities, please let us know.

Monday	Tuesday	Wednesday	Thursday	Friday
Sing along	Cards	Board games	Art	Table tennis
Choral group	Computers	Walking	Cards	Brunch
	Lunch	Pool	Computers	
	Movie	Yoga		

Shed Member's Forum

11am, Thursday, 1st August.

Lunch will be provided.

Please come along.

Important issues regarding strategic planning and use of the new hall will be discussed, as well as other issues you would like to raise.

Strategic Planning update

The Committee of Management have started the process of planning for the next 3 years. There are some crucial questions that members need to consider and make some decisions about.

To this end, the Committee have asked all members to consider the following questions and provide feedback.

The questions are:

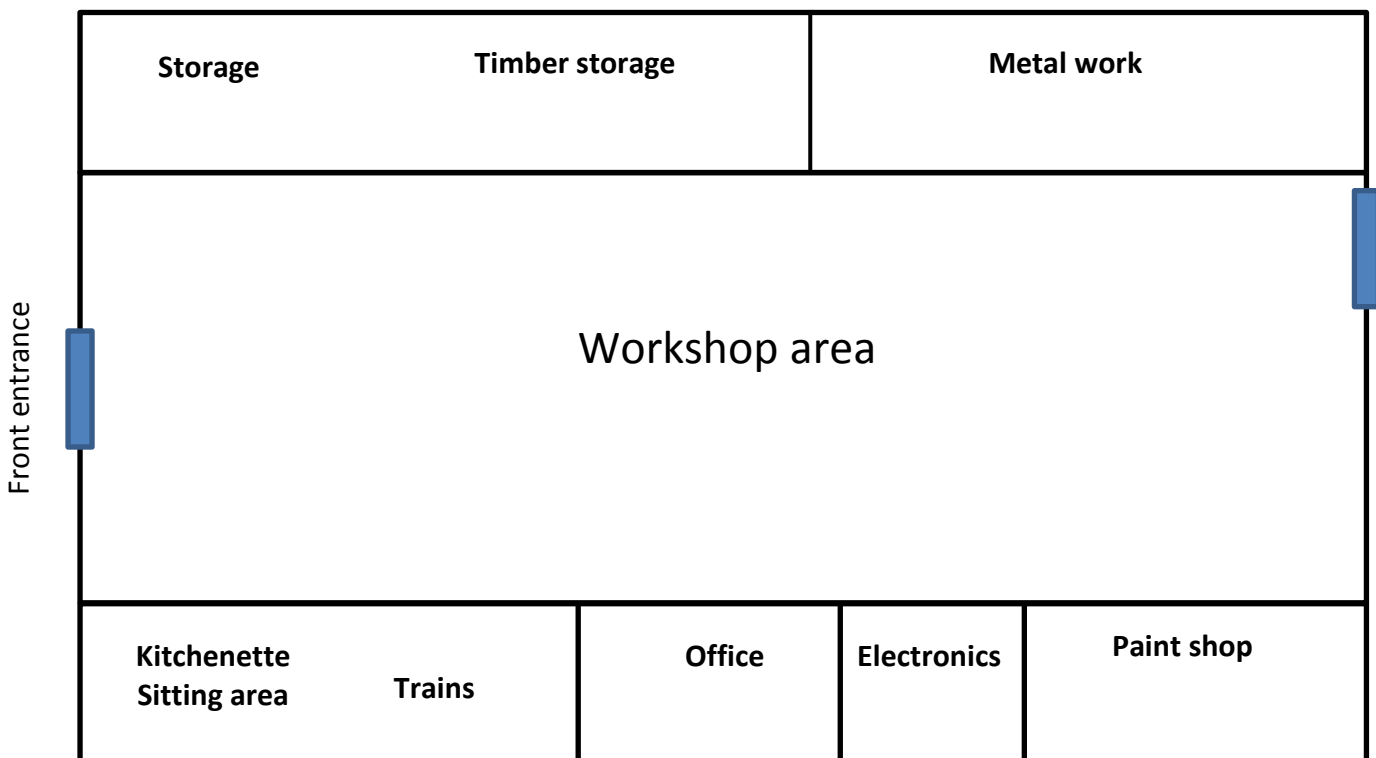

1. What level of service should the Shed be trying to provide?
 - a. The same.
 - b. More and open longer.
 - c. Less and open less.
 - d. Other.
2. What is the optimal level of membership for the Shed?
 - a. About the same.
 - b. More.
 - c. Less.
 - d. Other.
3. What level of staffing does the Shed need to achieve its aims?
4. What is the purpose and reason for the Shed to be here?
5. What do you want the Shed to look like in 3 years' time?
6. How are we going to achieve what we want?

The Committee have given some consideration to these questions and a summary of their responses are available in the Shed to look at. The Committee now want to hear from all members and invite you to attend the Member's Forum at 11.am on Thursday 1st August for this purpose.

Workshop Reconfiguration

The Council have agreed to shift a few walls in the workshop which will improve how we use the space and give us extra room for storage. This will get done over next month or two.

Please see new configuration below.

Help needed & Thank You

Members with MYOB experience

If you know how to use MYOB and are prepared to use your skills to help the Shed out for a period of time, please let Greg Male or Shane know.

Metal Work reconfiguration

We need someone with some knowledge of metal work and welding to help with planning and implementation of the metal work area. Changes will happen over the next couple of months and therefore we need some help to make sure it goes smoothly and achieves a good outcome. If you are able to help, please let Shane know.

Thank you to those members who have cars with tow bars and offered to help with transporting Shed items. Your help is much appreciated. Please see Maurie if you want to offer your help or find out more about what is needed.

Thank you for those who attended the working bee to help empty the new hall. There was over 10 members attend which made the work much less onerous and was finished in a couple of hours.
